

## Crane Training Schools Casa Grande

Crane Training Schools Casa Grande - We have designed many programs for Mobile Crane Operation at our Crane Training Schools. These programs are recommended for the experienced operator who requires certification or re-certification, and for inexperienced operator who is seeking work in the industry. Crane operator positions are high because of their high pay. Operators of cranes are among the highest paid of any operator of heavy equipment.

Our Crane Training Schools include training and instruction for different mobile cranes. Course subject comprises Crane Set-up, Wire Rope, Lift Planning, Load Dynamics, Rigging, Signaling and Load Charts.

The Crane Training School program is suitable for supervisors, operators and riggers. Course materials include an informative and manual hand-outs. The illustrated safety guidebook features 100 to 250 pages, depending on the course, of vital and useful material. Course materials consist of load charts and load chart exercises for the crane with which the trainee is working.

Hands-On Safety Training will take up over half of the course curriculum. The practical training part is the most effective method to developing and improving personal skill levels. Just qualified journeyman crane instructors are selected to teach the courses. Our instructors possess numerous years of practice in the business.

For all the course we provide, we could include optional testing mechanisms to customize your training. A skills test is normally administered for programs that include H.O.S.T. Individuals training will be tested and graded.

We offer certified training programs for the following cranes: Lattice Boom/Crawler Cranes; Fixed and Swing Cab Mobile Hydraulic Cranes; Rigging / Signalperson Training and Certification; Articulated Boom / Knuckleboom Cranes; In-The Seat Training and Testing & Certification.

Industry standards of practice are changing as new business requirements surface. There are constant updates to regulations and legislation. Enhancements in equipment and technology continue to be made. Industry data collection and analysis detect trends which are changing. Members maintain the advantage of managing their training programs and certifications. Mobile device alerts keep members abreast of workplace and personal safety news.
